

Brunel roundabout switchover

As part of the Heart of Slough project, the road network at the Brunel roundabout will change over the weekend of 21-23 October.

- the Brunel roundabout will be replaced with a new four-way junction controlled by traffic lights
- and there will be a permanent change of direction in the traffic flow on High Street West.

Please learn the new layout and help the traffic run smoothly.

For further information please contact Skanska's Customer Service Team on 0800 066 5006.

Heart of Slough

A £450 million regeneration project set to revitalise the centre of Slough.
